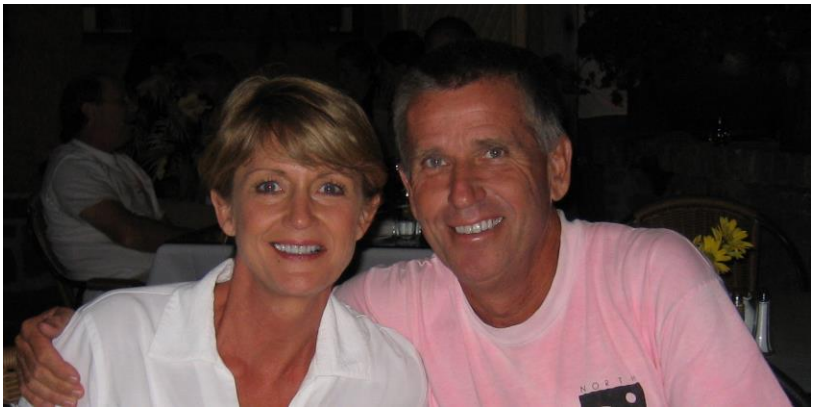
Bob Murphy

Life has been good to me. After OBHS, I attended UVIC and got a degree in Mathematics - Computer Science, plus a wife and son. Four years with IBM Canada in Toronto/Ottawa before moving back to Victoria to work in Commercial Real Estate. Started a Commercial RE firm in 1976 in Victoria and sold it 10 years later to a Canadian firm (Colliers International) that had aspirations of becoming Global. Joined this firm and was transferred to the US in 1992. I worked there until 2001, when I retired. I currently live most of the year in Arizona but just finished building a home in Sidney, so hope to spend much more time in the Northwest. By the numbers - 2 children, 4 grandchildren, 2 wives (1 at a time) and, as far as I know, in good health.

Looking forward to the reunion.


First photo is me (on right) cycling with a friend and business partner in Nova Scotia two years ago. Second is with my wife somewhere on the Oregon coast.
