

RISHA GOLBY -FRERER

The years since graduation have been filled with a great deal of travel, lots of gratifying work and amazing relationships.

I have lived abroad, and worked in various challenging fields. I wound up as a Certified Financial Planner. (much to the surprise of Mr. Dole who labored with my lack of Math skills). Prior to that I worked usually in design and restaurant restorations. I married 30 years ago to Bruce Frerer (a Yank) and as he was a business professional I felt a more “ adult” job like finance was called for. The “starving artist “was wearing thin.

I continue in this career partially, but have returned to my artistic roots (thank you Bill West!).

I live in Key West and now do restoration, color consulting and decorative paint.

Have managed to make a few “ bucket list” art projects a reality. The perfect retirement “ icing on the cake”.

When not working I travel, travel and travel. Having seen the world I feel very fortunate and have enjoyed most of this with my best buddy Barb Dunn. We have more planned and every 5 years do a “biggie” to celebrate our Birthdays. Next one is Dubrovnik and the Dalmatian Coast. We are very lucky girls

I have managed to stay in touch with quite a few of my Oak Bay cronies, but morn the loss of several close ones. Laura McCloud, Barry English, Bill Goff and Michael Gregson we miss you !

I look back on our time at Oak Bay as a magical period in my life. All the teachers in addition to Bill West who steered us through. Mr. McNally -Dawes, Mr. Costain, Ms. Piggot. Great teachers and mentors. My life was enriched then and now by their dedication.
